- 3:15** ——— Roundtable Discussion
- 3:55** ——— Wrap Up & Thank you

# PANEL DISCUSSION & ROUNDTABLE DISCUSSION

**Panel Discussion:** The panel will consist of stakeholders representing each of the four Atlantic provinces. They will participate in a moderated panel discussion on various topics as it relates to addressing gaps in chronic management of respiratory disease and improving health outcomes.

## **Panel Discussion Topics:**

1. What are the impacts of the social determinants of health on outcomes?
2. Are we upstream enough?
3. How can smoking cessation be effectively incorporated?
4. How do we engage public health to improve lung health in our provinces?
5. Are we measuring the correct outcomes?
6. How do we address the HR shortage of healthcare professionals while effectively expanding our community programs?
7. How can you streamline patients in a standardized pathway to provide the most effective service?

**Roundtable Discussion:** The roundtable discussion will provide attendees then opportunity to bring forward unanswered questions from the provincial updates, panel discussion and any additional topics attendees which to bring forth for further discussion.
